

COOPERATION BETWEEN SOSR AND MNE GLOBALIZATION IN THE STEEL INDUSTRY

DGINS 2019 BRATISLAVA

Veronika Torokova

Business Statistics Directorate

Director of Methodology and Synthesis of Business Statistics Department

Why does SOSR meet the reporting units?

- to discuss new facts influencing the development of economic indicators characterizing their business activities
- to inform on forthcoming legislative changes in the context of harmonization of measurement concepts

**Impact of globalisation appears as a new topic
⇒ challenges for statisticians!**

How to face the globalisation challenges?

- to set up Large Cases Units at NSIs as Eurostat's initiative
 - virtual or
 - LCU department in NSI

What was discussed recently?

- business models of the MNEs
- EGR data completeness
- GNI exercise as a tool to verify the reliability of recording the globalization effects in GNI
- the availability of data sources on MNEs

- complete information on globalisation features is not available at national level
- addressing enquiries to the MNEs in other countries \Rightarrow **legal support is needed**
- users requirements need to be prioritised
